COMPOSITION	<p>Box 1 - Unsatisfactory Composition is in the early learning stages and creates little value or worth. Auxiliary content is at a poor level.</p>	<p>Box 2 - Poor Composition has some basic understanding of design but is incomplete and rarely develops the design components beyond a beginning level. Auxiliary content is at a fair level.</p>	<p>Box 3 - Know Composition has a stronger understanding and achieves basic design components on an inconsistent basis. Auxiliary content is at a below average level.</p>	<p>Box 4 - Growing Composition understands the development of design and is achieved on a more consistent basis. Auxiliary content is at an average level.</p>	<p>Box 5 - Understand Composition has a strong understanding of development at a moderate level and is achieved frequently as well as exploring some advanced designs. Auxiliary content is at an above average level.</p>	<p>Box 6 - Apply Composition rarely fails to achieve developing design elements at the highest level. Auxiliary content is at an excellent level.</p>	<p>Box 7 - Elevate Composition creates the highest levels of design on a consistent basis. Auxiliary content is at a superior level.</p>
ACHIEVEMENT	<p>Box 1 - Unsatisfactory Band is in the early learning stages and creates little to no excellence worth. Auxiliary achieves at a poor level.</p>	<p>Box 2 - Poor Band has some basic understanding of excellence but is inconsistent and rarely develops the design components beyond a beginning level. Auxiliary achieves at a fair level.</p>	<p>Box 3 - Know Band exhibits a stronger understanding of excellence and achieves basic efforts on an inconsistent basis. Auxiliary achieves at a below average level.</p>	<p>Box 4 - Growing Band understands the development of excellence and achieves it on a more consistent basis. Auxiliary achieves at an average level.</p>	<p>Box 5 - Understand Band has a strong understanding of developing excellence at a moderate level and achieves it frequently as well as displaying some advanced concepts. Auxiliary achieves at an above average level.</p>	<p>Box 6 - Apply Band rarely fails to achieve excellence elements at the highest level. Auxiliary achieves at an excellent level.</p>	<p>Box 7 - Elevate Band creates the highest levels of excellence on a consistent basis. Auxiliary achieves at a superior level.</p>
